NOTES/QUESTIONS

2.

## Speak to professionals.

### Good advice matters.

Talk to your plumber, builder and/or designer about your bathroom.

Some early conversations with trade professionals will give you a clearer idea of what's possible and help you keep things on track.

1.

## Get Inspired.

### Dare to dream.

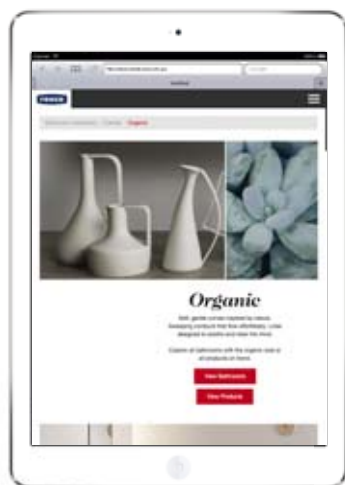

Create a 'mood board'.

Take photos of things that inspire you, visit websites like Pinterest and even cut out images from magazines.

The Inspiration section on the Reece website is packed with the latest bathroom trends and ideas.

Get inspired.

7 steps  
to a happy  
bathroom

7.

## Rejoice in your new bathroom.

### Share the love.

When your bathroom is complete, celebrate what you've achieved.

Post a photo on social media and show your friends.

And remember to send a photo to your Reece consultant for the opportunity to feature your bathroom on the Reece Inspirational Gallery.

3.

## Work out your budget.

### Invest in what you love.

While you can't put a price on the joy of a new bathroom, you do need to invest your money wisely.

Prioritise the things that are most important to you. Is it a freestanding bath? A twin-rail shower? Or a heated towel rail?

Also, allow for extras like tiles, lighting and mirrors in the overall budget.

4.

## Create a plan.

### Visualise your dream.

Before you begin, you'll need an exact layout to work from.

Use the Reece 3D Bathroom Planner to visualise your design and product options.

5.

## Select your products.

### Speak to the experts.

With so many products available, you are spoilt for choice. Visit your local Reece showroom where one of our bathroom consultants can guide your selections.

6.

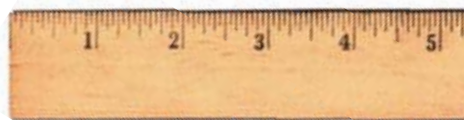

## Start your renovation.

### Watch it come to life.

It's time to begin.

Speak to your plumber or builder and make sure all your trades are lined up around the same time.

And, of course, you may be without a shower and toilet for a short period so it's smart to organise an alternative during the renovation.

Our team of style experts present some of the hottest trends that capture the attitude of the season and some quick makeover ideas to renew old spaces.

# Beautiful basins

Basins are often the focal point of a bathroom so choose a design that will bring the space to life.

## BASINS BASICS

### Vanity

A basin that is fully inset into a vanity.

### Semi Inset

A basin partially inset into the top of a vanity.

### Semi Recessed

A basin partially inset in the front of a vanity.

### Above Counter/Vessel

A basin that sits on top of a vanity.

### Under Counter

A basin mounted underneath the bench top.

### Wall Basin

A basin mounted to a wall.

### Freestanding

A basin that sits on the floor.

## TREND ALERT

## Fine Lines

Thin yet incredibly strong, this seamlessly simple appearance is underpinned by revolutionary craftsmanship.

## Semi Inset Basins

With their sleek styling, semi inset basins offer the latest contemporary lines to complement your choice of vanity.

## Wall Basins

Fixing directly to a wall, wall basins make the most of limited space.

## Bottle Traps

A chrome bottle trap is a great way to add visual interest to a wall-mounted basin.

Choose a freestanding basin for a hotel inspired look.

1. Kartell by Laufen Wash Basin Left Hand Shelf 2. Porcher Cygnet Inset Vessel Basin 3. Porcher Cygnet Wall Basin and Semi Pedestal 4. Roca Diverta Vanity Basin 5. Alape WT 325 Round Washstand 6. Mizu Drift 40mm Bottle Trap

## Day Spa

Rejuvenate the senses in a private wellness oasis.

## Accessories

A bath rack is great for holding soaps and bath oils.

## Soothing lines

Soft shapes and light colours create a sense of calm.

# Talking toilets

Toilet design is constantly evolving with a wide range of stunning and efficient designs now on the market.

## TOILET BASICS

### Wall Hung Pan

The pan hangs from the wall and connects to a hidden cistern.

### Back to Wall Pan

The pan sits flush with the wall and connects to a hidden cistern.

### Back to Wall Suite

The suite sits flush with the wall to conceal all piping.

### Close Coupled Suite

The suite features a joined pan and cistern.

### Link Suite

Most flexible in toilet pan set-outs as they are a two-piece system perfect for renovations and retrofitting.

# Outdoor

---

From the bathroom to the garden, we offer a range of smart products to help you manage water effectively around the home.

## Hot Water

Thermann's 6 star continuous flow hot water unit will help keep energy bills down while ensuring you never run out of hot water.

## Rainwater Tank

The Graf underground water storage system allows you to collect rain water for use in your toilets, laundry and garden without taking up any room in your backyard.

## Filters

The Cillit backwash filter removes sediment in the water flowing in from the mains, helping to protect your fixtures and fittings while delivering fresher, cleaner water.

Install a Cillit filter with your newly purchased kitchen and bathroom, and Reece will extend your warranty on those products by 3 years (applies only to tapware with a 7 year warranty or more).

## Irrigation

The intelligent Smartlink watering system reduces water usage and maximises landscape beauty. Web-based controls allow you to manage it from virtually anywhere in the world.
